

COMPANY ANNOUNCEMENT

Medserv p.l.c.

Approval of financial statements

Date of Announcement:	22 March 2016
Reference:	134/2016

The following is a Company Announcement issued by Medserv p.l.c., the “**Company**”, in compliance with Listing Rules 5.16.4, 5.16.20 and 5.54.

QUOTE

The Board of Directors of the Company has today approved the audited consolidated financial statements for the financial year ended 31 December 2015. The Board resolved that these audited consolidated financial statements be submitted for the approval of the shareholders at the forthcoming Annual General Meeting scheduled for 30 May 2016. Shareholders on the Company’s Register at the Central Securities Depository of the Malta Stock Exchange as at close of business on 30 April 2016 will receive notice of the Annual General Meeting together with a copy of the Annual Report and Financial Statements. A preliminary statement of annual results is being attached herewith in terms of the Listing Rules. The Audited Financial Statements will be available for viewing on the Company’s website at www.medservenergy.com as from today.

In the last Annual General Meeting held on 28 May 2015, the shareholders approved a final cash dividend payment of €1,400,000. In December 2015, the Company paid an interim dividend of €4,000,000 which was distributed in the form of bonus shares and cash in equal proportions. No final dividend is being recommended due to the substantial expansion program. The Directors continue to maintain a strong but responsible dividend policy.

Review of group operations

Introduction

This Statement is published pursuant to the Malta Financial Services Authority Listing Rules Chapter 5 and Article 4(2)(b) of the Prevention of Financial Markets Abuse (Disclosure and Notification) Regulations, 2005.

The financial information has been extracted from Medserv p.l.c.'s Annual Report and Consolidated Financial Statements for the year ended 31 December 2015 as approved by the Board of Directors on 22 March 2016, which have been audited by KPMG. These financial statements will be laid before the members at the Annual General Meeting to be held on 30 May 2016.

The Group's financial statements have been prepared and presented in accordance with International Financial Reporting Standards as adopted by the EU and the requirements of the Maltese Companies Act, 1995.

Review of performance

Revenue for year 2015 amounted to €42.2 million (2014: €32.2 million). This represents an increase of €10.0 million compared to 2014. The significant revenue growth of 31% over the previous year is attributable to the increase in the volume and portfolio of logistics services being provided to the oil majors and their sub-contractors throughout their drilling programs.

The Group's operating profit before depreciation amounted to €10,171,003 (2014: €5,877,913). After charging depreciation amounting to €2,650,153 (2014: €1,661,765), net finance costs amounting to €1,504,361 (€1,077,122), the Group registered a profit before tax of €6,016,489 (2014: €3,139,026). This result represents an increase of 92% over previous year and 38% over forecast. Profit after accounting for taxation and loss from discontinued operation amounted to €4,491,777 (2014: €2,185,897). The Group's results for the year are stated after deducting costs of €376,124 related to the acquisition of Middle East Tubular Services Holdings Limited (METS).

In June 2015, the Group sold its sixty percent shareholding in Medserv Misurata FZC to the Misurata Free Zone Authority. Management took a decision to close the Misurata, Libya base permanently as activity remained minimal. The Misurata base was not previously classified as held-for-sale or as a discontinued operation. The comparative consolidated statement of comprehensive income has been restated to show the discontinued operation separately from continuing operations. The loss from discontinued operation net of tax amounted to €218,528 (2014: €95,011).

Total comprehensive income for year 2015 amounted to €5,668,214 (2014: €2,185,897) and includes gains on cash flow hedges amounting to €1,176,437. These gains relate to the forward

contracts entered into by the Group in relation to the acquisition of METS which was concluded after reporting date.

The Group's performance in 2015 can be attributed to a number of factors. Firstly to the strong business flow conducted out of Malta in support of the ongoing operations offshore Libya. Secondly to the performance of Medserv (Cyprus) Limited which continues to service ENI out of the company's shore base in Larnaca. Finally, engineering and maintenance services continued to grow in 2015.

This positive performance is a direct result of past investment made in equipment, professionally qualified personnel, health safety and quality management systems as well as improved information technology. All of this has allowed Medserv not only to consolidate its position in the oil and gas industry but also to better its financial performance in challenging times.

State of affairs

Group total assets at reporting date stood at €81,141,029 (2014: €80,836,394). The Group's short term liquidity position as at 31 December 2015 was 1.2:1 (2014: 1.2:1). The current year's liquidity position is calculated after deducting from the current assets the derivative financial assets amounting to €1,176,437 and the advance payment in relation to the acquisition of METS amounting to €2,727,273.

Owners' funds, excluding non-controlling interest, amounted to €11,110,417 (2014: €9,215,824).

Outlook

The global oil and gas sector continues to suffer from the effect of oversupply of oil to the market. Many international oil companies have cut back their investment plans especially at exploration level and a record number of rigs have been decommissioned and are now mothballed around the world. Cost cutting including staff reduction by international oil companies and top tier contractors make for unpleasant reading for all involved in this important global industry.

Medserv too has had to react to the market reality. However the Company has refocused and moved ahead with its investment plans to ensure it can continue to be of service to its growing list of blue chip customers in the Mediterranean and beyond.

The main investment planned for the first quarter of 2016 was the acquisition of METS for a price of US\$45 million. This investment will take Medserv into the Middle East. METS operates from three free zone base facilities located in the UAE, in Southern Iraq, and in Oman. This acquisition allows Medserv to enter the developed market of the Middle East where the extraction cost of a barrel of oil can better withstand today's downward pressure on prices.

Of equal importance to the sensitivity mentioned above, the METS acquisition brings to the Medserv Group strong intercompany synergies. Whilst both Medserv and METS operate within the oil and gas sector, their respective services are complementary and can be introduced in all of the bases operated by the enlarged Medserv Group across the Mediterranean and the Middle East.

The business pipeline is strong in all the geographical markets in which we operate. Our optimism is based on the knowledge that we have positioned the Group to continue servicing North Africa from Malta, the Eastern Mediterranean from Cyprus, and the Middle East from the UAE, Southern Iraq, and Oman.

In line with Group development strategy, work has already commenced on evaluating the potential of new markets which include amongst others Portugal, Iran, and Trinidad and Tobago. All of the three prospects mentioned are at different levels of development with Portugal being the most advanced as we are waiting for adjudication of a tender already submitted. In respect of Trinidad and Tobago the Company has been shortlisted by an international oil company (IOC) to participate in a tender for the provision of supply base and pipeyard services, whilst negotiations are at an early stage in the Group's efforts to secure a base facility in Iran.
